

Advanced Compliance Guide

This guide contains articles about the features in Verba that were created specifically to make it possible for organizations to comply with regulatory requirements.

- [Approval Workflows](#)
- [Cases](#)
- [Legal Hold](#)
- [Voice Quality Check](#)
- [Announcement](#)
- [Call Blocking on Recording Failure](#)
- [Encryption and integrity protection](#)
- [CDR reconciliation](#)
- [Customer Identification Data Masking](#)

License requirements

In order to use some of the capabilities described in this guide, all recorded users should have the user add-on called **Verba Add-on Advanced Compliance License**.

Note! This add-on license is also required for some of the supported external Storage Targets. For details please review the [Storage and export targets](#) article.
